

## Funding Priorities

Moses Cone-Wesley Long Community Health Foundation seeks to provide funding to organizations and programs that address any of the following priorities:

Access to necessary health services with particular emphasis on eliminating the barriers often encountered by persons in need, or

Wellness, with particular attention to:

- Substance Abuse and Mental Health
- HIV/AIDS and other STIs
- Adolescent Pregnancy Prevention

### Grantmaking Characteristics

The Foundation strives to support permanent changes to systems that eliminate problems at the source. We also favor grants that demonstrate collaboration with other organizations as appropriate and to those that present clear measures of effectiveness.

Requests for capital are not normally considered.
